Applied Scientific Research

Contents of Volume 49 (1992)

Vol. 49 No. 1 January 1992

T.G. Thomas and H.S. Takhar: Turbulent mass transport and attenuation in Stokes waves 1

V.D. Rao, J. Saibabu and P.K. Sarma: Direct contact condensation of vapor on turbulent, falling liquid film 31

T.J. Moon, T.Q. Hua, J.S. Walker and B.F. Picologlou: Liquid metal flow in a simple manifold with a strong transverse magnetic field 49

A.K. Coker, G.V. Jeffreys and C.J. Mumford: Mechanisms of nozzle type reactor operation with gas removal 67

T. Govindarajulu and M.B.K. Moorthy: An approximate solution for free convection flows in a thermally stratified porous medium 83

G.E. Tupholme: Elastoplastic cracks moving in orthotropic crystals 91

Vol. 49 No. 2 April 1992

B.A. Jubran, M.N. Hamdan and B.O. Al Bedoor: Roughness and turbulence intensity effects on the induced flow oscillation of a single cylinder 101

H.I. Andersson and K.L. Tiseth: Leakage effects in laminar duct flow: a numerical study 117

M. Jagannadham, K. Subba Reddi and D. Angirasa: Buoyant plumes due to mass diffusion 135

S.D. Gulwadi and A.F. Elkouh: Unsteady flow in an annulus between two concentric rotating spheres 147

H.C.J. Hoefsloot, H.W. Hoogstraten, L.P.B.M. Janssen and J.W. Knobbe: Growth factors for Marangoni instability in a spherical liquid layer under zero-gravity conditions 161

R. Coene: Flutter of slender bodies under axial stress 175

Vol. 49 No. 3 July 1992

Papers from *Euromech Colloquium 279*
Image analysis as measuring technique in flows
Delft University of Technology, July 2–5, 1991

Preface, by F.T.M. Nieuwstadt 189

R.D. Keane and R.J. Adrian: Theory of cross-correlation analysis of PIV images 191

S.B. Dalziel: Decay of rotating turbulence: some particle-tracking experiments 217

H. Stapountzis, J. Westerweel, J.M. Bessem, A. Westendorp and F.T.M. Nieuwstadt: Measurement of product concentration of two parallel reactive jets using digital image processing 245

H.A. Siller, R.J. Perkins and G. Janke: Image analysis of oil film interferometry – a method of measuring wall shear stress distributions 261

Regular papers

T. Fusegi, J.M. Hyun and K. Kuwahara: Three-dimensional numerical simulation of periodic natural convection in a differentially heated cubical enclosure 271

H.F. Bauer: Response of a viscous annular liquid layer in zero-gravity to different axial excitations of the rigid boundary plates 283

Vol. 49 No. 4 October 1992

H. Knoester and J. van der Zanden: On the stability of multi-layered fluids. Part I: analysis 307

I.A. Hassanien: Flow and heat transfer from a continuous surface in a parallel free stream of viscoelastic second-order fluid 335

M.H. Hamdan and R.M. Barron: Analysis of the squeezing flow of dusty fluids 345

J.B. Aparecido and R.M. Cotta: Laminar thermally developing flow inside right-angularly triangular ducts 355

F. Osterle: On the relationship between Lorentz's theorem for viscous flow and Onsager's reciprocal theorem 369

Reviewers of Applied Scientific Research 1991–1992 377

Euromech Meetings 1993 379

Kluwer LaTeX style file: Instructions to authors 383

Author index, Volume 49 (1992)

Adrian, R.J., 191
Al Bedoor, B.O., 101
Andersson, H.I., 117
Angirasa, D., 135
Aparecido, J.B., 355
Barron, R.M., 345
Bauer, H.F., 283
Bessem, J.M., 245
Coene, R., 175
Coker, A.K., 67
Cotta, R.M., 355
Dalziel, S.B., 217
Elkouh, A.F., 147
Fusegi, T., 271
Govindarajulu, T., 83
Gulwadi, S.D., 147
Hamdan, M.H., 345
Hamdan, M.N., 101
Hassanien, I.A., 335
Hoefsloot, H.C.J., 161
Hoogstraten, H.W., 161
Hua, T.Q., 49
Hyun, J.M., 271
Jagannadham, M., 135
Janke, G., 261
Janssen, L.P.B.M., 161
Jeffreys, G.V., 67
Jubran, B.A., 101
Keane, R.D., 191
Knobbe, J.W., 161
